

PANKAJ KATKAR

Data Scientist

■ Pune, India | ■ 9960432269 | ✉ ■ pankajkatkar263@gmail.com

PROFILESUMMARY :

Innovative and results-driven Data Scientist (3.8 years) with proven expertise in Machine Learning, Deep Learning, NLP, and Generative AI (RAG & Agentic AI). Experienced in designing and deploying AI-driven solutions, predictive models, and intelligent automation systems that enhance business decisions and customer engagement. Adept in Python, TensorFlow, LangChain, Fast API, and AWS, with a strong focus on building autonomous AI agents and Gen AI-based applications.

CORE SKILLS :

Programming & Tools: Python, SQL, TensorFlow, Scikit-learn, Pandas, NumPy, NLTK, LangChain, FastAPI, Git, Power BI, Excel.

AI & ML Expertise: Machine Learning, Deep Learning, NLP (BERT, GPT, Transformers), Generative AI, RAG Systems, Agentic AI, MCP.

Cloud & Deployment: AWS, API Integration, Model Deployment

Databases: Relational (PostgreSQL, MySQL), Vector Databases (FAISS, Pinecone)

Other Skills: Data Cleaning, Feature Engineering, Prompt Engineering, Semantic Search, Model Evaluation.

PROFESSIONAL EXPERIENCE :

Ebot Technosoft – Pune, India

Data Scientist | Sep 2022 – Apr 2026 (3.8 Years)

- Designed and deployed machine learning and deep learning models to drive actionable business insights and automate decision-making.
- Developed Gen-AI and Agentic AI systems leveraging frameworks like LangChain, Open-AI API, and RAG architectures.
- Collaborated cross-functionally to define AI-driven strategies for predictive analytics and automation.
- Hands-on experience with Fast API/Flask for deploying scalable ML and Gen AI applications on AWS Cloud.
- Applied prompt engineering and LLM optimization for improved chatbot responses and semantic retrieval.

PROJECTS:

FinQA Agentic RAG – Autonomous Multi-Source QA System

(Jan 2026 – April 26)

Designed an Agentic RAG chatbot integrating multi-source and vector search to enable autonomous retrieval and reasoning.

WebSphere RAG – Intelligent Multi-Website Chatbot

(July 2025 – Nov 2025)

Built a multi-website RAG chatbot combining retrieval-based and generative AI techniques to provide accurate responses.

FinDocs Multimodel RAG – Document-Based Question Answering System **(Feb 2025 – Jun 2025)**

Developed a retrieval-augmented document QA system leveraging vector databases and transformers for accurate answers.

FinLens Insights – Real-Time Sentiment Analyzer

(June 2024 – Jan 2025)

Built an NLP-based sentiment analysis model for customer feedback analytics.

Bankedge – Customer Loyalty Risk Analytics

(Sept 2023 – May 2024)

Developed a deep learning churn prediction model reducing churn rate.

Bankflow IQ – AI-Powered Real-Time Customer Profiling

(Sept 2022 – Aug 2023)

Designed ML-based customer segmentation model, improving campaign engagement.

EDUCATION :

Bachelor of Engineering (B.E.)

Shivaji University, Kolhapur
